## New Community Launch!

We are pleased to announce the launch of the [Federal Executive Boards \(FEBs\) Community](#) on Open Opportunities! The FEBs are a forum for communication and collaboration among Federal agencies outside of Washington, DC. FEBs build interagency partnerships and community involvement to create and nurture working relationships that address issues of shared interest. Currently, approximately 85% of Federal employees are located outside the Washington, DC area. Across the nation, FEBs provide a forum for local Federal leaders to share management challenges and strategies to meet agency missions and goals, identify common issues, develop collaborative efforts to address those issues, and share best practices among their peers.
